TSP650II Series
Best Value-Driven Desktop Printer

Always Leading - Always Innovating, Star Micronics' TSP650II high-speed thermal receipt printer is offered with a variety of interface options. Updates to exceed and further enhance one of Star's most popular printers, the TSP650II boasts a lightning fast print speed of 60 RPM (receipts per minute) and features an improved guillotine auto-cutter, and easy "drop-in & print" paper loading.

Interface options available include Serial, Parallel, USB, Ethernet, and the iOS compatible Bluetooth printer. In addition, Star Micronics has expanded its line of TSP650II with a WLAN option, making it the perfect receipt printer for any mPOS application. The

TSP65OIIWLAN now offers a stronger signal with 5GHz connection and a price competitive compared to other wireless printers on the market.

The TSP650II series can also be seamlessly intergrated eith the Star Micronics AllReceipts™ digital receipt application, allowing customers to manage their receipts digitally, and retailers to receive instant feeback on customer satifaction.

- **High Speed: 300mm / second**
